Now, for the first time, you can follow the red carpet into the heart of the spirit world. Browne reveals intimate details of how some of our most cherished actors, musicians, and public figures have fared since their deaths, giving us one more glimpse into the personalities we loved and lost. In candid relationships, these stars reveal fascinating details on their new lives and at the work they are carrying out on the other side, many even share if and where they intend to reincarnate. With the accounts written entirely in a state of trance, afterlives of the rich and famous offers an unprecedented look at life on the other side. You will find detailed descriptions while Browne vividly brings the world of spirits and explains how we get there, from Cie that transpires at the time of death to extraordinary welcome spirits. Afterlives of the Rich and Famo I had difficulty understanding past lives before I started studying them was a basic principle that confuses many people: in essence, that a past life is not someone else's life. Each of us has our own spirit, absolutely unique and divine, and that spirit lives a variety of characters during the lives that has lived before, is she "one of the points" I think I had difficulty understanding the past lives before starting To study them it was a basic principle that confuses many people: in essence, that a past life is not someone else's life. Each of us has a whole spirit, absolutely unique and divine, and that spirit lives in a variety of characters In a variety of incarnations. Anyone we're right this minute is a total sum of the and experience our spirit has gained during the lives it's lived before, both here and on the Other Side... We design literally every aspect of our lives: our families, our friends, our enemies, our victories, our disappointments, our crises, our illnesses, our careers, our hobbies-every aspect. Not one of us designs a perfect lifetime. If perfection were what we were after, we wouldn't opt to come here in the first place. In fact, writing our charts in an atmosphere of perfection often causes us to overreach and design more challenges than we can handle, no different than walking into a grocery store when you're hungry and finding yourself tempted to say, "One of each, please." I've thought to myself a million times, as you may have too, that I must have been drunk when I wrote my chart-it's the only possible explanation for my having thought every moment of this lifetime was a good idea." Introduction -pages 16, 30-31Having seen Sylvia in person I can attest to the fact that she was an authentic and very accurate Psychic. As a Practitioner of Past Life Reclaiming and someone who has re-experienced, reclaimed, and healed several Past Lives that are directly related to this present one, I was looking forward to reading about what Past Lives were affecting some of the famous people I liked and enjoyed. Bearing witness to the constructs of previous challenges & successes that helped to create the people we knew in this Life, was akin to reading a dramatic thriller, where tension and divinity were tangible throughout and left you wanting more. It was not surprising to find that John Belushi lived all his previous 13 lives with excess as a constant struggle in combination with a surplus of talent. John is one of those Spirits who with the best intentions eagerly choose to fill their charts with temptations that will be very difficult to overcome and then return Home (Other Side) discouraged.
